

## 3<sup>rd</sup> Class News

It has been a busy but exciting start to third class. Here are just a few things that we got up to:

The children have enjoyed having Eoghan teaching them (and me!) how to use an app called book creator on the iPads. The children have designed their own books with speech and animation which they presented to the class.

Cricket and strength and conditioning training are two of the sports that Third Class have completed this half term.

The children have started to learn the tin whistle and it is evident that there are a few talented musicians and rising stars in third class.

We took a trip to Burrow Beach to complete an investigation on food chains. The children examined the various species of plants and animals in the local environment.

The opening of the garden was a beautifully sunny day and was thoroughly enjoyed by the children.

Third class attended a workshop given Brickz for kids and we built our own clock towers! The children discussed how people measured time in the past. The children learned that clocks need a reliable source of energy to measure time accurately.
