

## Senior Infants

We have been working very hard in Senior Infants this term. We have revised our phonics, learned some new sounds and are nearly finished learning all of our tricky words.

We covered the numbers 1-10 and are enjoying getting to add and subtract sums. We can count on our fingers and by taking jumps on our number lines. We have learnt all about length, weight and capacity and will be learning to tell the time over the coming weeks. We will be focusing on learning o'clock and half past so you can help us practice at home too.

We enjoyed doing pilates with Janette and have loved learning coding on the iPads. We completed little projects on Scratch Jr all by ourselves.

We have gone on a few nature walks with our buddies over the last few months to spot the changes in the seasons. We loved our Spring walk as we saw so many flowers starting to grow.

We have enjoyed having Ms Armitage teach us over the past few weeks and will be sad to see her go today.

In Aistear we have been focusing on 'The Sports Shop', 'The Estate Agents' and we are currently spending time in 'The Garden Centre'. We are enjoying planting and look forward to seeing our seeds grow over the next few weeks.

We are so lucky to do maths and English stations. We love getting to do so many different activities every week.
