

Junior Infants

Junior Infants have enjoyed a wonderful start to the year. It is lovely to see new friendships blossom as they learn more about each other every day. They painted self-portraits, made a class friendship tree, shared baby photos and told us what makes them unique during their first show and tell time. The children have enjoyed lots of stories, songs and games together and GAA with Paddy is always fun. They love to sing and dance and look forward to assembly songs with the whole school each Friday. Another highlight of the week is when we meet up with our buddies from 6th Class for scavenger hunts, games and story-time in the garden. Aistear has given the children the chance to learn more about different houses and homes through investigation, role play, construction and small world play. They also found a wonderful collection of items for our autumnal nature table and were interested in exploring this topic and learning more about this colourful season.

Happy Halloween from Junior Infants
